Sensata Airpax 1U Breaker

As a Sensata Technologies representative, Promoco Scandinavia AB is proud to present the Airpax™ IER Series circuit breakers as the latest addition to the Airpax™ hydraulic-magnetic circuit protection portfolio. Sensata Technologies has been a leading supplier of high performance circuit protection products to a variety of global OEM markets for over 50 years. The Airpax™ brand name is recognized worldwide and we continue to develop products that meet the current and evolving needs of the marketplace.

Designed for maximum utilization of panel space, the Airpax™ IER is a low profile, high performance magnetic-hydraulic circuit breaker well suited for use in telecom, datacom and industrial applications.

The Airpax™ IER is available with one or two poles, constructed in a variety of trip time delay curves, with current ratings from 2.0 amps to 50 amps.

Additional features include:

- Magnetic-hydraulic technology that provides consistent operation over a wide range of ambient temperatures. No de-rating is required.
- High performance circuit protection in low profile package for panel heights of 1 rack unit (1U/1RU)
- UL489A and UL1077 approved. TÜV approval to EN60934 is pending.
- Trip free mechanism design assures that the contacts will open in the event of a fault condition even if the handle is restrained in the ON position.
- Designed to meet the shock and vibration requirements of MIL-STD-202
- Available with optional mid-trip handle construction for quick visual indication of tripped circuits
- Optional remote alarm capability with mechanical or electric trip auxiliary switches
- High DC interrupt capacity of 5,000 amps up to 80VDC is ideal for global telecom and datacom applications

Promoco Scandinavia AB is your business partner and distributor of electromechanical components and products. As your partner, our experts will be available to help you to find the right products or components for your exact product in regards to everything from component demands to all aspects of the delivery chain. To see the different ranges of products we have to offer, kindly refer to the product catalog on our main site Promoco.se (Swedish). If you are in need of specially adapted solutions not available in our product catalogue, Promoco Scandinavia AB is able to offer customized and refined products to fit your purposes.
