

## The Company Report

You get a quick picture of the development of the industry, the target group or the suppliers, and in-depth financial information on the growth in individual companies.

Our report gives you information about companies in your industry, in your target group or in the segment where you make your purchases. You will have access to contact details and financial information on all the companies in your selection. The report is delivered as an Excel file with accompanying graphs. You can also choose to export the information to your CRM, purchasing or ERP system.

### Choose from the following reports:

#### **The Industry Report – All the companies in your industry**

The Industry Report helps you to see how your business is performing compared to other companies in your industry.

#### **The Target Group Report – All the companies in your target group**

The Target Group Report gives you up-to-date information about your existing customers and a list of your prospective customers.

#### **The Supplier Report – All the companies in the segment you make purchases from**

The Supplier Report displays information about the companies in the industries you make your purchases from.

### What does the report contain?

Each report contains up to 10,000 companies. The report displays the corporate contact information, and financial data and ratios from the last three years. Below you can see the data included in the report.
